

Patients love Laser Genesis

Love your skin.

"I love how my skin looks after laser genesis treatments. It's brighter, smoother, and looks more refreshed."

— J.P.

Look and feel your best.

"I started noticing fine lines and increased redness in my early 30's. Laser Genesis was just what I needed to make my skin look and feel younger."

— A.R.

BEAUTIFUL, BRILLIANT SKIN.

Give your skin a boost!

LASER Genesis®

LASER Genesis®

Achieve beautiful, brilliant skin with Laser Genesis

Laser Genesis is a breakthrough non-ablative laser treatment that stimulates the skin's natural processes to diminish the signs of aging and sun damage, and promote a vibrant, healthy-looking complexion.

Laser Genesis gently delivers heat to the problem area to address:

- + Diffuse redness
- + Fine lines
- + Skin quality
- + Scars
- + Acne scars

Q: WHAT IS LASER GENESIS?

A: Laser Genesis delivers gentle laser energy to improve the appearance of fine lines, wrinkles, and redness to diminish the signs of aging for beautiful, brilliant skin with no downtime.

Q: HOW DOES LASER GENESIS WORK?

A: Micro-pulses of laser energy are gently delivered to the skin. The laser stimulates the body's own processes to activate collagen remodeling to improve the appearance of fine lines, wrinkles and unwanted brown spots. In addition, Laser Genesis addresses facial redness by targeting the excess micro vessels. Although the individual treatment results are subtle, the overall effect of a treatment series can be quite dramatic.

Q: WHAT DOES LASER GENESIS FEEL LIKE?

A: You will experience a gentle warming of your skin's surface during the procedure. Patients often describe the treatment as relaxing and therapeutic.

Q: WHAT AREAS CAN BE TREATED?

A: Laser Genesis is an ideal treatment for the face, neck, chest, and other areas of the body with noticeable signs of aging, sun damage, redness, mild wrinkles or scarring.

Q: HOW MANY TREATMENTS ARE REQUIRED?

A: A series of four to six Laser Genesis treatments are recommended to achieve an optimal outcome. Improvements are gradual and will be seen over a period of few treatments. Results will continue to improve for months after the last treatment. To sustain results over time, ongoing maintenance treatments are encouraged.

Q: WHAT ARE POSSIBLE SIDE EFFECTS?

A: Because the Laser Genesis procedure is non-invasive, you may notice a slight redness immediately after treatment which will resolve within a few hours. Since there is no downtime, you can apply sunscreen and makeup and return to your normal daily activities immediately.

Q: IS LASER GENESIS FOR ME?

A: If you have been seeking a quick, no downtime procedure to gently improve your overall complexion and give you a beautiful, confident appearance, Laser Genesis is the treatment for you!
